School of Vocational Teacher Education

VOCATIONAL TEACHER EDUCATION
WITH FINNISH TOUCH

What can we offer you and your organisation

The Vocational Teacher Education with Finnish Touch focuses on the competences needed in teaching and guidance of diverse students in various learning environments. In addition, the programme provides students with the competences needed in networking and developing their educational organizations, the field of working life and professions.

The organisation of studies:

- Language: English or Spanish
- Extent: 60 ECTS (approximately one academic year)

The Vocational Teacher Education with Finnish Touch can be used as an initial teacher training programme of 60 ECTS or you can buy separate in-service training modules of 10 ECTS.

What else you and your organisation will get

- **The personal development plan** ensures that the participant will have a customized study process in terms of content and learning activities.
- **The team-based learning mode** enables shared learning activities, collaborative working methods and peer evaluation and feed-back.

- **Guided work based learning in your own teaching tasks** gives possibilities to the beginning teachers to practice the basic teaching and guiding skills; to the experienced teachers it offers possibilities to renew their pedagogical thinking and teaching practice.
- **The developmental project** included in the studies gives competences needed in developing participant's own work and organization, and more broadly, educational sector, working life and professions.
