

PEDAGOGY IN HAAGA-HELIA

Pedagogy in Haaga-Helia links learning to work, creating and applying new knowledge in a communal and developing way.

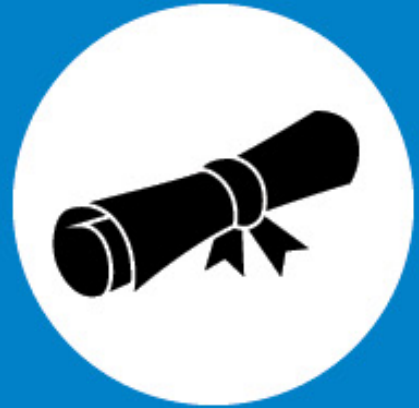

PEDAGOGY

Pedagogy in Haaga-Helia is inspirational and always applied with a human touch.

It encourages students to develop themselves.

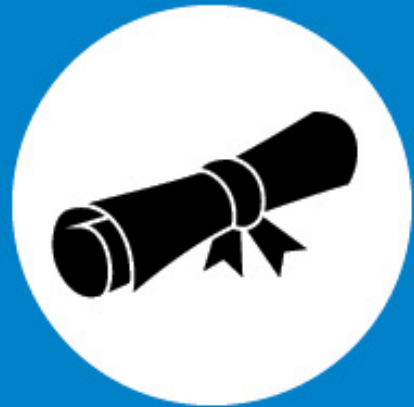

PEDAGOGY I

- guides students to acquire relevant skills and competences for their future careers as well as for developing their future workplace
- develops students' meta competences
- is experimental, action-oriented and communal

PEDAGOGY 2

Pedagogy is implemented jointly with companies and other organisations in a variety of ways while also integrating research, development and innovation activities into learning.

TEACHING IN TEAMS

**TEACHING IN TEAMS IS
OUR CHOSEN APPROACH**

- Teachers jointly adjust the ways of working together.
- Teams are flexible and can change.

**CREATING
KNOWLEDGE AND
DEVELOPING
COMPETENCES**

- A team of teachers is the expert, not an individual teacher alone.
- Teachers' competences become visible to others.

**OUR APPROACH
REFLECTS BUSINESS LIFE**

- Teachers work together with students on development projects for our partners.
- The salient role of a team of teachers is to guide students in real-life projects.

PEDAGOGY IN HAAGA-HELIA LINKS LEARNING TO WORK, CREATING AND APPLYING NEW KNOWLEDGE IN A COMMUNAL AND DEVELOPING WAY

Pedagogy in Haaga-Helia is inspirational and always applied with a human touch. It encourages students to develop themselves.

- Guides students to acquire relevant skills and competences for their future careers as well as for developing their future workplace
- Develops students' meta competences
- Is experimental, action-oriented and communal

Pedagogy is implemented jointly with companies and other organisations in a variety of ways while also integrating research, development and innovation activities into learning.

TEACHING IN TEAMS IS OUR CHOSEN APPROACH

- Teachers jointly adjust the ways of working together.
- Teams are flexible and can change.

CREATING KNOWLEDGE AND DEVELOPING COMPETENCES

- A team of teachers is the expert, not an individual teacher alone.
- Teachers' competences become visible to others.

OUR APPROACH REFLECTS BUSINESS LIFE

- Teachers work together with students on development projects for our partners.
